QUALITY ASSURANCE

Since its inception in 1970's the Komtech brand has grown to include 2 facilities in Ontario- Canada, and operations in USA, Malaysia and India.

Komtech has introduced hundreds of plastic components having the best quality throughout the USA, Canada & India i.e. injection molded, plastic handles, bumpers, suction cups etc . Komtech will provide you with the most cost effective design, development, quality and manufacturability of your injection molded plastic parts.

Cost Saving - With design engineering , tool building, production and sub-assembly, all within our own facilities, Komtech offers some of the most competitive molding rates and part prices in the US & Canadian market.

HANDLES

Handle 0861- Wire-Core® Handle has the strength to lift anything a person can carry. The "soft feel" plastic around the wire provides a comfortable grip. Shown with Metal Base 2123* attached and Plastic Snap-In Cap 2105*, which is available with hot-stamped logo. Nominal handle size 5-3/8 x 2-11/16 (136.5 x 68.3)

Handle 0553- combines ultramodern styling and strength made possible by the use of selected high impact polymers. Shown with molded hardware cap 2046. Other hardware styles available. Nominal handle size 6 x 2-47/64 (152.4 x 69.5)

Handle 0165- Light duty handle, molded from Virgin Polyethylene. For **heavier duty**, specify Handle 0166 molded from Virgin Impact Polypropylene. Shown with hardware 2062. Nominal handle size 5 x 2-3/16 (127 x 55.6).

Handle 0241- Double handle with sleek, uncluttered, modern styling. Special angled design creates extra comfortable grip area. Molded from **Virgin Polyethylene**. Shown with ring 4015 and clip 2042 attached. Nominal handle size 5-1/4 x 3-9/16 (133.4 x 90.5)

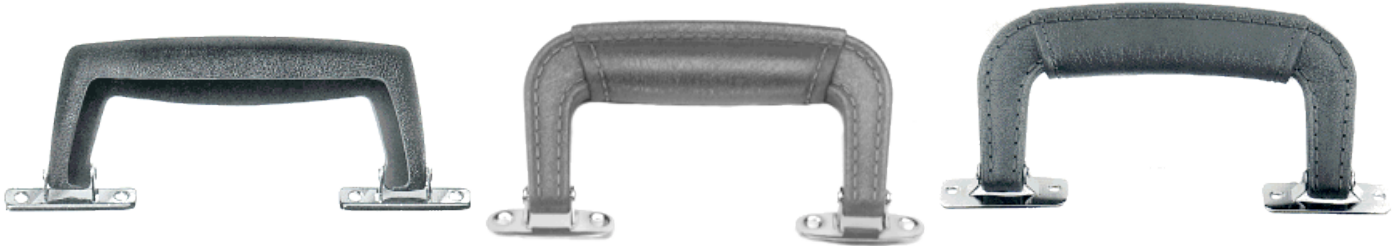

Handle 0518-Features include molded-in stitches and **leather-like grained texture**. For kiss print on top of stitches specify **Handle 0519**. Molded from **Virgin Polyethylene**. Shown with hardware 2085. Nominal handle size 4-3/4 x 2-7/16 (120.7 x 61.9).

Handle 0525-For comfort and eye catching appeal, features include fully radiused grip area and **deep leather-like grained texture**. Molded from **Virgin Polyethylene**. Shown with hardware 2080 attached. Nominal handle size 4-13/16 x 2-5/8 (122.2 x 66.7)

HANDLES

Handle 0532- Modern styling includes deep grained finish across the top of the **handle** accented by smooth high gloss grip area. Molded from **Virgin Polyethylene**. Shown with hardware 2059 attached. Nominal handle size 5-1/8 x 2-5/16 (130.2 x 58.7).

Handle 0544-Attractive appearance of hand sewn **handle** with heavily wrapped grip and molded-in stitches. Molded from **Virgin Polyethylene**. Shown with hardware 2080 attached. Nominal handle size 4-15/16 x 2-9/16 (125.4 x 65.1).

Handle 0543-The look of hand sewn handles is duplicated with molded-in stitches, wrapped grip, and deep leather-like graining. Molded from **Virgin Polyethylene**. Shown with hardware 2004 attached. Nominal handle size 5-3/32 x 2-11/64 (130.2 x 68.6).

Handle 0535-Fresh modern styling is accentuated by the matte finish, low profile and clean lines of this economical **handle**. Molded from **Virgin Polyethylene**. Shown with hardware 2056 attached. Nominal handle size 4-13/16 x 2-3/16 (119.1 x 55.6).

Handle 0566-Economical, bar-mounting handle. Strong inbound studs allow for direct mounting to blow-molded cases. Molded from **Virgin Impact Polypropylene**. Shown with hardware 2153. Nominal **handle** size 5 x 2-1/2 (127 x 63.5)

Handle 0846-Deep grained finish on **handle** legs is accented by textured finish in grip area and polished finish on top and sides. Molded from **Virgin Impact Polypropylene**. Shown with color coordinated plastic hardware bar 2106. Nominal **handle** size 5 x 2-1/2 (127 x 63.5).

HANDLES

Handle 0866*-Deep leather grain appearance is combined with smooth grip area and soft contours. Molded from Virgin Impact **Polypropylene**. Shown with plated metal hardware bar 2058* and plastic cap 2035.* Also available molded from Conductive **Plastic** for static-free cases. Nominal **handle** size 5-3/8 x 2-11/16 (136.5 x 68.3)

Handle 0508*- Slender profile combined with deep, luxurious leather grained texture for the ultimate in styling appeal. Measures 5 5/16" x 7/16" (134.9 x 11.1) Molded from virgin "**Soft-Feel**" plastic. Shown with ring 4008 and clip 2127

Handle 0850-Features smooth, high polished surface. Available in matching colors or with plated metallic surface. Molded from Virgin Impact **Polystyrene**. Generally used with #10 self-tapping screw. Nominal **handle** size 5-3/16 x 1-1/4 (131.8 x 31.8).

Handle 0505-Molded from Virgin "**Soft-Feel**" plastic with printed stitch detail. Available without printed stitches as handle **0507**. Shown with ring 4015 and clip 2065 attached. For **heavier duty model**, specify 0500 with printed stitch or 0502 without stitch. Nominal **handle** size 5-1/2 x 9/16 (139.7 x 14.3)

Handle 0501-Strong, elegant injection molded **Polyethylene strap handle** with deep textured finish. Measures 8" x 1" (203.2 x 25.4). Shown with plated hardware cap 2145. For prong mounting specify cap 2144.

Handle 5015- Low cost, 3/4" (19.0) wide **Polyethylene Strap Handle**. Can be made to specified length and/or provided with 1/8" (3.2) or 1/4" (6.3) diameter punched holes. Shown with metal cap 2049.
